## CTIC Lunchtime Speaker Series: Peter Detkin

Time: 12:00pm - 1:15pm

Location: S147

Peter Detkin will present. Lunch will be served. Space limited to 45 RSVPs.

Peter N. Detkin is a founder at Intellectual Ventures where he focuses on a variety of projects relating to intellectual property and invention. Intellectual Asset Management recently named Mr. Detkin the second most influential "IP market maker" in the world.

Prior to joining Intellectual Ventures, Mr. Detkin spent 8 years at Intel Corporation where he was a vice president and assistant general counsel. As assistant general counsel, Mr. Detkin was responsible for managing the Intel patent and licensing departments, including all aspects of prosecution and claims management. Mr. Detkin also managed the litigation and competition policy departments (including antitrust).

Before he joined Intel, Mr. Detkin was an intellectual property partner at the law firm of Wilson, Sonsini, Goodrich and Rosati in Palo Alto, Calif. Mr. Detkin was the first patent lawyer hired at this firm and formed the basis of its highly-successful intellectual property practice. While at Wilson Sonsini, he had lead or second chair responsibility for a number of high profile litigations, including the seminal computer copyright case *Lotus v. Borland*.

Outside of his professional work, Mr. Detkin is the past president of the Law Foundation of Silicon Valley, an organization dedicated to providing legal services to low-income children and families, people with mental and developmental disabilities, AIDS patients and victims of discrimination. Through his extensive involvement with the Foundation over the years, he has worked with others to provide free legal services to thousands of low income families and children through a variety of programs.

Mr. Detkin received his B.S.E.E. with honors in 1982 from the University of Pennsylvania's Moore School of Electrical Engineering and a J.D. in 1985 from the University of Pennsylvania Law School. He serves as a member of the Board of Overseers of the University of Pennsylvania School of Engineering and Applied Science. He is also on the Board of Directors of the Brady Campaign and Center to Prevent Gun Violence.
