The Laws of Armed Conflict in the Autonomous and Cyber Age

Time: 12:00pm

Location: Gittis 2

Please join Penn Law Students For Israel to host Major General Danny Efroni to lead a discussion on the development of the law of war in the cyber age on March 30th at noon in Gittis 2. Through his experience serving as the chief legal advisor to the IDF, Maj. Gen. Efroni can offer one of the world's leading perspectives on this issue. Considering the timely nature of this subject, and its continued relevance going forward, we very much look forward to hosting Maj. Gen. Efroni. The event will feature a Q&A with a Penn Law professor and will then open to the audience for general questions.

Non-Pizza Kosher Lunch to be served.
