Design and IP: Where Do We Draw the Line?

Time: 12:00pm - 1:00pm

Location: Gittis 213, Kushner Classroom

Join PIPG in exploring the tension between copyright and fair use in design fields including interior design, architecture, and product design. Offering his perspectives on the intersection of design and IP will be Penn Law alumnus Robert Banner (L'79), who will discuss how these issues impact future litigation, business transactions, and licensing opportunities.

Mr. Banner is currently a partner at Ingram Yuzek Gainen Carroll & Bertolotti, LLP. He specializes in construction law and complex construction litigation. He has also arbitrated commercial cases involving breach of contract, intellectual property, and ownership interests in corporations. Ingram Yuzek represents design professionals as well as design-related businesses in a wide variety of business transactions.

Lunch from Cosi will be provided.
